

Deborah Sobel

Technical Sales Representative

Date: April 24, 2009

MasonPro
43300 7-Mile Road
Northville, MI 48167

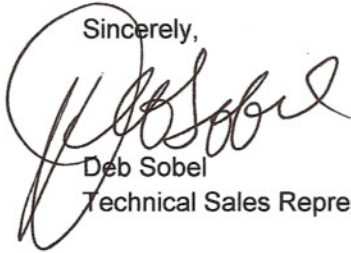

To Whom it May Concern:

This letter is in response to your request for information on Grace's Zonolite Masonry Insulation (ZMI ®). ZMI does not contain any recycled material. It is a vermiculite based produced manufactured at our Enoree, South Carolina facility.

Your customers may be interested in the fact that there is no off-gassing from the ZMI. I know that is becoming more and more of a concern.

Please let me know if you have any additional questions or concerns.

Sincerely,

Deb Sobel
Technical Sales Representative
