MATERIAL SAFETY DATA (MSDS) INFORMATION

The following statement applies to all of Filmtech's surface protection films:

These polyethylene tapes are not considered hazardous substances as defined by the OSHA Hazard Communication Standard 29CFR1910.1200 (as amended by the August 24, 1987 Federal Register). Because of the aggressive adhesives of these tape products, they should not be applied to skin surfaces and should be kept out of reach of children and others having the inability to use these or similar products.
