

PRODUCT DATA SHEET

Brick Veneer on CMU or Concrete Substrate

Surface Mounted with Rigid Cavity Insulation -
Anchor in Tension

MASONPRO®

Product Description

Dimension:

- ABV3012 for 1" insulation
- ABV3033 for 1-1/2" insulation
- ABV3022 for 2" insulation
- ABV3035 for 3" insulation

Finish:

- *Exterior* Hot dip galvanized after fabrication zinc coated per ASTM A153/A153M-B2 (1.50 oz per square foot).

Uses:

- Tying brick veneer to CMU or Concrete Substrate with rigid cavity insulation

Advantages:

- Simple and economical to install
- Simplifies installments of cavity insulation
- Promotes high thermal performance
