The New Improved Quikpoint Drill-Mate Mortar Gun.

The Quikpoint Drill-Mate Mortar Gun

Quikpoint for the past 16 years has made many thousands of users more productive because it is quick, clean and accurate.

The Quikpoint Drill-Mate Mortar Gun is easily mounted to all 3/8 inch variable speed drills, corded or uncorded.

With its **auger drive, Hardened Steel Tip-Blades** to prevent plugging and **vibrator feed**, the **Drill-Mate** can handle standard and pre-mixed mortars and makes anyone an expert pointer. **The Quikpoint** is a definite time and money saver.

Just scoop mortar into the **three quart capacity hopper**, pull the trigger on the drill and a continuous controlled bead of mortar can be applied, up to five times faster than conventional pointing methods, to any masonry application.

The Quikpoint comes with **4 oblong interchangeable steel nozzles** from 3/16th inch to 5/8th inch wide and an angled nozzle for overhead and other specialized applications.

The Quikpoint Drill-Mate is ideal for all Cultured-stone, Thin-brick, Glass block, Tuckpointing and all types of masonry joints.

The Newly designed Quikpoint Drill-Mate is the state of the art for mortar application to all masonry joints.
