**Product Name:** Climaseal®

**Description:** Climaseal is a high quality metal filled thermoset coating. Climaseal has been uniquely formulated to react and form a complete long life protection to provide the optimum in corrosion resistance properties. Climaseal is self sacrificing to the base substrate if penetrated or damaged. Fasteners coated with Climaseal exhibit excellent resistance to most forms of abrasion and torque.

**Chemical Identification:** Organic Metallic Polymer

**Color:** Silver/Metallic Grey

**Cure:** Thermoset

**Typical Film Properties:**
- Humidity Resistance: Excellent
- Solvent Resistance: Excellent
- Impact Resistance: Excellent
- UV Resistance: Excellent

**Fastener:** TEKS / Maxiseal / SCOTS

**Base Treatment:** Zinc (non-electrolytically applied)

**Film**
- Climaseal - Metal filled (Aluminum)
- Thermo-set Polyester

**Test Method:**
- Salt Spray, ASTM B117
  - 1000 Hours -10% or less red rust
- Kesternich, DIN50018, 2.0L
  - 30 Cycles - 10% or less red rust

**Pull-Out Data (Average Lbs. Ultimate)**
