Re: LEED information for Niles Building Products Vinyl Lath Accessories for Stucco Systems

Products: Niles Building Products Vinyl Lath Accessories

For determining LEED credits for recycled content and manufacturing location of Niles products, the following is being submitted:

LEED Credits:

MR 4.1 and 4.2 – Recycled Content

Using information from our production facility, vinyl lath accessories are produced in the United States and have a Total Recycled Content of 50%. The Pre-Consumer Scrap is calculated to be 50%.

MR 5.1 and 5.2 – Regional Materials

Niles Building Products Vinyl Lath Accessories are manufactured at, 8441 Western Way, Jacksonville, FL 32256.

MR 2.1 and 2.2 – Construction Waste Management

Vinyl Lath Accessories are manufactured of 100% Vinyl. All scrap material from the job site is 100% recyclable.

Thank You,
Niles Building Products
