

Grout Stop™

Product Information:

Use:

- Grout Stop™ creates a barrier that stops the flow of grout when filling block wall cells. This is an effective way to limit solid grouting to upper block courses.

Dimensions:

- 6" for 8" CMU X 100' Rolls
- 8" for 10" CMU X 100' Rolls
- 10" for 12" CMU X 100' Rolls
- Custom sizes available

Finish:

- Polypropylene, clear mesh

Advantages:

- Durability prevents grout from breaking through
- Allows moisture to pass during construction
- Lightweight and economical
