

USED EQUIPMENT FOR SALE!

EZ Scaffold Continuous / Crankup Scaffold

I am selling 200 lf of crank up / continuous commercial tower scaffolding. I have (2) sets capable of running two commercial projects at once. See the manufacturer's inventory list for all of the parts below. I also have the manufacturer's safety and instructions manual. I would like to sell it as one set. I also have the OSHA plank to go with it and it is identified in the list below. I moved the scaffolding on two gooseneck trailers that I am also looking to sell, but are not included in the price.

The trailers that I have are a 2015 - 35' Big Tex double axle with the mega ramp and a 2016 - 40' Big Tex double axle with the mega ramp.

Shipping / delivery is negotiable, or you can pick it up at my laydown yard in the **Panhandle of Florida**.
